

Assembly Instructions

For Sukkah size 8x10, 8x12,
10x12 and 10x16

Parts List

8'x10'

RODS

- 4 CORNER RODS (Box # V7C/V75C/V8C)
- 2 TRIPLE CONNECTING RODS –
(Box #V7E/V75E/V8E)
- 6 8' WIDTH RODS (Box # H8)
- 11 5' LENGTH RODS (2 Boxes # H5)

FABRIC

* The Fabric bag also contains the following items

- Rubber Mallet
- Bamboo Holders
- Mehadrin Rope

You may have some extra rods, Bamboo poles
and holders due to packing

8'x12'

RODS

- 4 CORNER RODS (Box # V7C/V75C/V8C)
- 2 TRIPLE CONNECTING RODS -
(Box #V7E/V75E/V8E)
- 6 8' WIDTH RODS (Box # H8)
- 12 6' LENGTH RODS (2 Boxes # H6)

FABRIC

* The Fabric bag also contains the following items

- Rubber Mallet
- Bamboo Holders
- Mehadrin Rope

You may have some extra rods, Bamboo poles
and holders due to packing

Parts List

10'x12'

RODS

- 4 CORNER RODS (Box # V7C/V75C/V8C)
- 2 TRIPLE CONNECTING RODS –
(Box #V7E/V75E/V8E)
- 6 10' WIDTH RODS (Box # H10)
- 12 6' LENGTH RODS (2 Boxes # H6)

FABRIC

* The Fabric bag also contains the following items

- Rubber Mallet
- Bamboo Holders
- Mehadrin Rope

You may have some extra rods, Bamboo poles
and holders due to packing

10'x16'

RODS

- 4 CORNER RODS (Box # V7C/V75C/V8C)
- 2 TRIPLE CONNECTING RODS -
(Box #V7E/V75E/V8E)
- 6 10' WIDTH RODS (Box # H10)
- 12 8' LENGTH RODS (2 Boxes # H8)

FABRIC

* The Fabric bag also contains the following items

- Rubber Mallet
- Bamboo Holders
- Mehadrin Rope

You may have some extra rods, Bamboo poles
and holders due to packing

GENERAL INSTRUCTIONS

In this instruction booklet we recommend a method for constructing the Sukkah that we think is the easiest, fastest and most convenient. However, you can use any other method that achieves the desired result.

When planning the placement of the Sukkah, please take into consideration that it is recommended to place the door on the right side of the long wall. To avoid any damage to the metal frames, we recommend using a rubber mallet to connect the rods.

STEP 1: ASSEMBLY OF THE SUKKAH FRAME

Every vertical rod is made of two unequal parts, long and short.

Make sure when assembling the sukkah that the shorter part of the vertical rod is at the bottom

1

1. Start assembly at the corner.
2. Place the width rods on the ground in the right place with the pin facing upwards (see diagram).
3. Connect the corner rod to the width rod on the ground.

3

3. Attach the upper width rods, plus the upper middle width rod.

2

2. Connect the triple connecting rods between two shorter length rods lying on the ground. (see diagram).

4

4. Continue to connect the upper width rods.

5

STEP 2: ATTACHING THE FABRIC

1. Unpack the fabric. For your convenience we recommend spreading it on a clean surface.
2. Find the door and position it as shown in diagram 1. Spread around the Sukkah. Please ensure that the bright part is on top and the dark part is on the bottom.
3. Use the strings to attach the beginning (the door) of the fabric to the right corner of the long wall. (Diagram 2)
4. Start wrapping the frame with the fabric. To attach the fabric use the upper Velcro fasteners first.
5. Finish wrapping the fabric around the Sukkah. Fasten the overlap.
6. Fasten the lower Velcro fasteners, including those at the bottom of the door.
7. Fasten the middle Velcro fasteners.

STEP 3: LAYING THE SCHACH

1. Please make sure to finish constructing the Sukkah before laying the Schach. (Obligatory according to Halacha)
2. Laying the bamboo sticks (or the wooden support beams) to support the Schach is highly recommended. In order to stabilize the bamboo sticks use the bamboo holders.
3. Spread the Schach by unrolling it on the bamboo sticks. We are not responsible to supply bamboo sticks to support the schach, if not ordered.

Congratulations! You have completed the assembly of your Sukkah. We wish you a Chag Sukkot Sameach!
